I understand that information from my record may be shared with the members of my treatment team. My treatment team will be determined by the services I receive, and may include, but is not limited to, a nurse, nurse practitioner, or doctor. In the event of an infestation or infection of a school-aged child, my child's school may be contacted. Childhood immunizations may be shared with the Michigan Childhood Immunization Registry. Any other release of information will require a specific release, signed by the client, custodial parent or guardian, unless the information is otherwise legally required.

Midland County Health Department may release, either verbally or in writing, information contained in my medical, social, or educational records, including HIV, AIDS, or AIDS related information, as is necessary for the authorization and payment of bills for professional services.

I understand that I am responsible for charges due the Health Department and that payment is expected at the time of service.

Did you bring your immunization record card with you? yes no

It is important to have a personal record of your child's vaccinations. If you don't have one, ask the child's healthcare provider to give you one with all your child's vaccinations on it. Keep it in a safe place and bring it with you every time you seek medical care for your child. Your child will need this document to enter day care or school, for employment, or for international travel.
