4:00 p.m.

### Scam Alert Update:

We have received some additional information regarding the earlier Scam Alert post. We had reports of subjects in the area that were presenting themselves as a representative from FEMA and handing out a SERVPRO card asking for money.

SERVPRO has contacted us and have advised they are in the area and are reaching out to the community affected by the flood to see if anyone is interested in their services. They want you to know that their employees drive green vehicles that are marked SERVPRO, they have ID and business cards, they will NOT represent themselves as being from FEMA and have provided the below number to call if you are interested in their services and/or need to verify employment of an employee. Their storm team verification number is 877-818-7127.
